

G6FL LED FLOOD LIGHT

DESCRIPTION

JAYKAL's G6FL LED Flood Light Series is engineered to provide an energy-efficient and versatile outdoor lighting solution. Featuring a low-profile, modern design, the G6 seamlessly integrates into a wide range of architectural and landscape applications.

Available in three housing sizes with multiple lumen packages ranging from 15W to 120W, the G6FL delivers efficacy up to 161 lm/W, maximizing energy savings while maintaining superior illumination performance. Integrated field-adjustable power and CCT (Correlated Color Temperature) settings provide exceptional flexibility, allowing users to customize light output and color temperature to meet specific project requirements while simplifying inventory management.

FEATURES

- Designed for building facades, courtyards, driveways, parking areas, signage, billboards, and other commercial or industrial applications
- CCT Adjustable 3000K / 4000K / 5000K
- Wattage Adjustable 100% / 80% / 60% / 40%
- Photocell Option Optional security and energy saving
- Environmental IP65 Rating Wet location suitable
- Efficacy up to 161lm/W

Multiple Mounting Options

The Single fixture can be compatible with different installation methods. For example: simply remove the Knuckle joint and inst bracket, without the need for any additional waterproof measures.

ACCESSORIES (Optional)

	
<p>Wire Guard</p>	<p>Knuckle Assembly Supporter</p>

STRUCTURAL DESIGN

Photocell (Option)
Optional photocell allows for security and energy saving

Optics
A highly reflective white reflector and tempered glass are used to shape the 7H x 7V light distribution. At the same time, the integrated visor that comes with the cover can reduce glare very well

Mounting
MFD11 have a powerful 1/2 NPS knuckle mount, and also available with either a slipfitter or yoke(trunnion) mount.

Housing
One-piece die-cast aluminum housing with optimal thermal management both enhances LED efficacy and extends fixture's life.

Power and CCT controller
Wattage selectable: 100%, 80%, 60%, 40%
CCT selectable: 3000K, 4000K, 5000K
